

COVID-19 - Travel to Croatia

Passengers are allowed to enter into Croatia without the need to present an EU Digital COVID Certificate or any other epidemiological certificate (test finding, vaccination certificate, etc.) and without determining self-isolation.

Travelers must, however, comply with the regulations and recommendations of the Croatian Institute of Public Health : <https://www.koronavirus.hr/en>

We also advise travelers to record their trip via <https://travellersonline.diplomatie.be>

Please consult the Travel Advice for all practical questions concerning your trip to Croatia: In French
